EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Frederick Strickland on Friday, July 21, 2006.

The application has been amended as follows:

10. (Currently Amended) A woven fabric comprised of continuous filament yarn, consisting ~~essentially~~ of a co-mingled bundle of 10 to 90 wt % para-aramid filaments and 90 to 10 wt % meta-aramid filaments, said yarn having a random entangled loop structure wherein the weight per unit length of the yarns is 3 to 25 percent higher than a continuous filament yarn having the same composition but no entanglement or loops.

2. The following is an examiner's statement of reasons for allowance: The present amendment has overcome the rejection of Gurian (US 5,856,005) in view of Behnke et al. (US 5,856,005) as detailed in the previous rejection. Although Gurian and Behnke are considered to be the most pertinent prior art, they fail to teach or disclose a yarn consisting only of 10 – 90% para-aramid and 90 – 10% meta-aramid filaments wherein the yarn has a random entangled loop structure. Gurian teaches yarns comprising flame-retardant filaments in the core and anti-microbial filaments in the sheath, while Applicant's claim specifically excludes the incorporation

Art Unit: 1771

of any filaments other than para-aramid and meta-aramid. The removal of the anti-microbial filaments in the Gurian reference would destroy the purpose of Gurian. Behnke teaches a combination of meta-aramid and para-aramid *staple* fibers rather than filaments and does not teach the random entangled loop structure.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
